PRESS RELEASE

Bevootech Announces SmartZhongYi Clinic Management System

SmartZhongYi is the #1 most user-friendly system for Traditional Chinese Medicine clinics to manage the entire clinic operations, integrating patient records, medical and visitation history, prescription, medical certificate and invoicing.

SINGAPORE: Bevootech, a Singapore-based CRM consulting and software company, today announced SmartZhongYi – a comprehensive clinic management system suited for clinics that practice traditional Chinese healthcare through TCM (traditional Chinese medicine) Tuina, Chinese Medicine, Acupuncture and other traditional Chinese healing methods. SmartZhongYi has all the features and modules to meet the clinic operational requirements of TCM clinics in Singapore with usability design that even older physicians are able to learn and use the system easily.

Traditional Chinese medicine treatment has been gaining popularity and recognition in Singapore. This has encouraged increasing numbers of young TCM physicians to set up clinics and suggesting the need for good TCM clinic management software. Bevootech strongly believes that the adoption of TCM will continue grow in Singapore, and globally.

SmartZhongYi helps TCM Clinics better manage and streamline clinic management processes such as the entire operation from appointment bookings, in-patient record management, patient profiles, patient medical history, prescriptions, drug inventory management, sales (billing and payment) and expenses.

Additionally, SmartZhongYi has specific TCM features like TCM helping words dictionary for entering physicians to save time when entering medical case notes and TCM prescription formula management which helps physicians easily prescribe their experience formula prescriptions at the click of a button.

SmartZhongYi supports both Chinese and English users, easily able to change language from English to Chinese in one click. SmartZhongYi runs on any Windows PC, Apple Mac and even the iPad. TCM clinics can sign up online to use SmartZhongYi SaaS on the SmartZhongYi cloud or install the system in a private cloud or local server.

Bevootech has the goal for SmartZhongYi to be the #1 most user-friendly TCM clinic management system in the world.
